Designated United States Depository, Corner Room, Odd-fellows' Hall. THEO. P. HAUGHEY, Pres't. E E. REXFORD, Cash.

MONEY, STOCKS AND GRAIN

Share List Generally Heavy, with Final Changes Denoting Small Losses.

Western Union Crosses Par, Closing Higher Than for a Long Time-At Indianapolis All Cereals Declined on Less Demand.

THE BOND MARKET.

Less Activity in Railroad Issues, but Quotations Were Firm.

At New York, yesterday, money on call was easy at 2@3 per cent., the last loan being made at 24 per cent., closing offered at 21/2 per cent.

Prime mercantile paper, 54 @61/2 per cent. Sterling exchange was quiet but firm with actual business in bankers' bills at \$4.86 for sixty days and \$4.87% for demand. The total sales of stocks were 426,000

shares, including the following: Atchison, 4,200; Burlington, 4,700; Chicago Gas, 5,900; Distilling, 52,200; Erie, 4,300; Hocking Valley, 5,200; Louisville & Nashville, 11,100; Manhattan, 4,500; New England, 57,400; Northern Pacific preferred, 6,500; National Lead, 10,500; National Cordage, 13,400; Reading, 28,100; Richmond Terminal, 40,600; Rock Island, 6,900; St. Paul, 16,000; Sugar, 46,800; Union Pacific, 6,900; Western Union, 39,900.

The stock market showed considerable irregularity in its movements yesterday. though the general list was heavy until the last hour. The market was dominated principally by the assurance that the considerable gold, estimated in some quarters as high as \$4,000,000, would leave the country Saturday. The situation in Paris, it is thought, will have influence on both the London and New York markets. The heavy loss of gold by the Bank of France and the uneasiness of savings bank depositors in that country is causing France to draw heavily upon England for gold, which in turn draws upon this country. This influence, however, was combatted effectually by the unusual ease in money, while the elimination of the short interest during the last few days has brought over all the traders on the bull side. The industrial stocks were all strong, especially in the early dealings, and though they yielded some later, all closed materially higher. strong points of the market Western Union and Richmond & Point, which, in company the industrial stocks, enjoyed support. Western crossed par and closed at its highest figure, with a gain of 1 sper cent., being now higher than it has been in a long while. The general list dropped steadily, after a strong opening, until the last hour, when local shorts covered extensively. Final changes, while small, show a majority of

Bonds were not quite so active, nor so de-cidedly strong, and aside from the strength in Richmond & West Point fives showed few special features with a firm tone throughout. The market closed active and firm, generally at slight fractions below opening figures.

Government bonds were dull and steady. State bonds were dull and firm. Closing quotations were:

LOCAL GRAIN AND PRODUCE

Business Good, All Things Considered-Flonr

Firmer-Fruits and Vegetables Advancing. When the unusually severe weather for Indiana is taken into consideration the volume of business is rather a surprise. The flour market is taking better shape, and firmer prices are ruling on the better demand. In the fruit and vegetable line prices on most articles are reaching figures. which place them among the luxuries. Cabbage at 15 to 20 cents a head, potatoes over a dellar a bushel, onions \$3 per bushel are certainly luxury prices, and it is impossible to get any really choice apples even at \$4 to \$4.50 per barrel. The market. bowever, is well stocked with a poor quality of apples. Dry-goods men talk of

higher prices. A Boston paper says the best printed fabric shirtings and satines are all advancing in tendency. The tendency is toward a stronger market on both brown and bleached cottons, and if the market continues as strong as it now looks the chances are that several advances will be made on the 1st of February. The position of raw cotton is the principal reason this advance, but it is also worth bearing in mind that the stocks of cotton goods are reduced to a point where they are entirely under the control of manufacturers and their agents. The jobbers own few goods that are to come forward to them at prices before the rise, and, indeed, their stocks are small. Hence, agents are able to have matters pretty much their own way. Boot and shoe men are getting in spring and summer stocks anticipating good trade. There was a fair attendance on Change,

yesterday, but prices broke badly. Wheat went off be, and all grades of corn and oats from be to le. Track bids ruled as follows: Wheat-No. 2 red, 68c; No. 3 red, 64c; No. 4 red, 55c; rejected, 50c; wagon wheat,

HEAVY DROP IN ALL GRAIN

Wheat Now Stands at 41 Cents Below the Bulge Point on Last Monday.

Those Recognized as Clique Brokers Turned Sellers, It Being Rumored that Several Big Bears Had Been Badly Squeezed.

TRADING AT CHICAGO.

Provisions, Contrary to Wheat, Have Started Upward Again.

CHICAGO, Jan. 19 .- Wheat had a sensational drop to-day, falling nearly 2e from last night's close and 44c from the point touched Monday. The causes of the decline were largely local, for, while the news was rather bearish and cables and outside domestic markets easy, these influences alone were not sufficient to cause the big slump. The market closed 1120 lower than on the previous day. Corn and oats were unusually steady considering the weakness in wheat, but each closed with 4c loss, Provisions, under the fostering care of such operators as Armour and Cudaby, ruled strong after a short spell of early weakness. Compared with last night pork is up 371/2c; lard, .121/2@.171/2c.

The furious selling of longs and the viclous hammering by the bears chiefly brought about the collapse in wheat. The crowd generally attributed the selling to the clique, and it was certain that houses which have been all along recognized as clique houses were doing most of the selling. On the down turn the longs outside the clique lost courage and liquidated. Stop loss limits were gradually reached, and the execution of these produced further panie. The numerous and lofty pyramids came tumbling down, and for a short time there was much excitement and a panie among the longs who were on the outside. At the start the market was fully 40 above last night's close and seemed strong, but cables came easier and the buying soon came to a halt. At the same time Kennett-Hopkins, Boyden, Brossea. Parker, Gaylord, Schwartz-Dupee and others recognized as operators for the clique began to offer the wheat in big blocks and the word went round that the clique was selling out and prices began to tumble. There was no effort to counteract this impression and the market kept on the down grade until it had dropped 240 from the opening figure, which it did before noon. There was some rally later on free covering by short sellers to secure profits, but there was no very important recovery. The action of the clique, or the supposed action, caused no end of comment. Some declared they have not sold much wheat, but have created that impression for the purpose of shaking out the tailers and getting the market down so they can buy cheaper wheat. On the other hand it was contended that it is legitimate liquidation; that they have found it impossible to market their holdings at the prices which have ruled of late and as their line was largely secured under 80c, they resolved to market it as best they could, being sure of a profit anyway, and load up again on the break. Pardridge is reported to have covered heavily. The opening was about 18@ so per bushel higher than the close of yesterday and with some fluctuations prices declined to a point 24c below the highest point reached to-day, then rallied %c, again eased off, and the close was about 11/20 lower than yesterday.

Corn was tame. The market opened at about unchanged figures, and, under free selling by some of the larger commission houses, receded 18@ 4c, railied 14@3sc, ruled steady and closed with 14@3sc loss. There was more inclination displayed on the part of local room operators to short the market, evidently gaining courage at the course prices have pursued the last two

Oats were traded in to a moderate extent, but the business was mostly local, and prices confined to 4c range. Pork broke down the day wheat started up. To-day the wheat broke down while pork started up. The hog market was reported from the yards to be weak, and prices from 15c to 20c lower. That caused a weakness in the provision market at the start, and for half an hour it appeared doubtful whether or not there would be a further decline than that which occurred at the opening. Armour took the initiative in the matter with a number of buying or-

ders. Cudaby adopted a similar course. and, with the two heavy-weights buying, the advance was not a difficult matter. A feature favoring the long side was the further decrease in the packing of the West, making the aggregate since the opening of the season about 411/2 per cent. less than last season to date. The poor quality of the hogs had some effect in stimulating prices. Estimated receipts for to-morrow are: Wheat, 160 cars; corn, 210 cars; oats, 120 cars; hogs, 23,000. The leading futures ranged as follows:

Options. | Opining Highest. | Lowest. | Closing. 761g 8134 7078 4234 431g 4758 3034 Wheat-Jan . Corn-Jan ... Feb.... May Oats-Jan ... Feb..... THE FLOUR OUTPUT.

Slight Increase in the Minneapolis Mills

demand and firm.

Product at Better Prices. MINNEAPOLIS, Jan. 19. - The Northwestern Miller says: The mills slightly increased their output last week, getting out 169,340 barrels, averaging 28,221 barrels daily, against 165,100 barrels the week before, 173,145 barrels for the corresponding time in 1892, and 115,600 barrels in 1891. Fourteen mills were in operation again Wednesday, but it is doubtful if as good a showing is made for this week as for last. The total sales of flour for a week appear to have been greater than the output. Millers, however, eay that the market has no snap. When wheat began to go up buyers were anxious to place orders at low prices, and a good deal was probably sold on this basis and more or less even at 10@15c advance, but since another 10c was added business has been the advance, but are slow about taking hold at prices now asked. Some fair-sized blocks of bakers have been sold around 17s 6d to London. As a result parties who had considerable stocks on hand have been able to work off most, if not all, of them. Millers do not try to sell low grades for export, as they can get better prices is this country. For a few days pretty heavy sales of red-dog have been made for domestic trade, and prices have stiffened in consequence. Direct export shipments by the mills last week were 52,500 barrels, against 40,150 barrels the preceding week.

TRADE IN GENERAL

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points. ST. LOUIS. Jan. 19.—Flour easier but not quotably lower. Wheat advanced 4@ sc early, then dropped 1@1 sc: later a partial recovery occurred, and the close was \$ @ 120 for May and 4c for July below yesterday; cash, 69c; May closed at 751/8; July, 75 c. Corn opened a shade off and declined another fraction, but it did not follow wheat down, and closed 18040 under yesterday; cash. 38%c; February, 38%c; May, 42%c; July, 434. A Contrast.

Chicago Tribune. "That new brooch of yours, Mrs. Minker," said her candid friend, Mrs. Speakout, "if you don't mind my saying so, is the ugliest thing I ever saw." "I know it." replied the brave little woman, cheerfully. "I wear it because my

husband gave it to me for a Christmas present." And Mr. Minker, listening in the room adjoining, remembered that he had given away to chronic loafers and office bores. with slighting and contemptuous remarks. the box of cigars his wife had presented him Christmas day; and he went out to the

Thinks the Infanta Is a Kid.

coal-shed and kicked himself.

Her royal highness, the infanta Isabella. is coming over from Spain to attend the world's fair, and will be entertained at the White House. Baby Ruth with her dolls. toys and command of the universal langnage of baby hood, can be depended upon to perform the chief duties of a hostess.

The Retort Unfilial.

Chicago Tribune. Lawyer Sharpe-Johnny, what makes you stick out your tongue and move it round when you're writing!

Johnny (laying aside his pen for a mo-ment)—Father, what makes you thrash your arms all around when you're using your tongue talking to a jury!

THE INDIANAPOLIS **JOURNAL**

DAILY.

SUNDAY

WEEKLY

Since the Journal reduced in price from 25 to 15 cents a week, it has greatly extended its circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate the result which was to be expected, namely, that what was first regarded as a luxury has become a necessity, and that the new readers not only remain, but their list is constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail r express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. Although the campaign is ended, the coming session of Congress and subsequent change of administration involve political problems and proceedings likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing

on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constant endeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertain. ment the Sunday Journal is indispensable in every well-regulated family. The Weekly Journal, at \$1 per year,

contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany. agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-
